[Time Sensitive Communication...We're Working On It!](#)

The Board of Governors has heard many comments on increasing up-to-the minute information about important happenings in our community. So, we're researching texting options for time-sensitive information. This would be an "opt-in" feature and would be limited to the most critical pieces of information. As we conduct our research, we would be open to your comments and questions and would be happy to hear from anyone who has some experience with a texting application. Stay tuned for more information.

[Beach Committee Update](#)

Based on the Beach Committee meeting on 8/2 and the BOG meeting on 8/3, the Beach Committee is providing the following updates and notices for GNBA members:

- Special thanks to community members who joined in the post-storm cleanup on July 19. This was a big help in expediting the restoration of our beaches and it turned out to be a social event as members got to know each other! Based on feedback, we will be scheduling additional beach clean-up days that will be posted on the website and on the Official Giants Neck Beach Association page. Join us if you can!
- All kayaks, boats, and paddle boards stored on the beaches must be labeled with name and contact information. This is required by the Coast Guard in the event the watercraft gets washed away. Property can be more easily returned and the information may avoid unnecessary and costly searches.
- Please do not use the beaches to store items unless they are used on a regular basis.
- Privately owned floating rafts must be removed when not in use. They pose a safety and insurance liability risk and are not allowed according to our bylaws.
- Also per our by-laws, dogs are not allowed on the beach from May 1 to October 1 each year. We've had more than a few instances of dogs on the beach this year.

Thanks for your cooperation.

[Clubhouse Management Chair](#)

The association is in need of a chair for the clubhouse committee. Several

volunteers have stepped up to handle pieces of the task list, but we need an individual to coordinate the pieces and look for efficiencies in our processes with the BOG Liaison, Lou Piscatelli. If you are interested or have questions about the position, please reach out to Lou as soon as possible.
